

# Courage

**Sub-Concepts Covered: Vulnerability, Humility, Kindness**

Kindness in the Classroom lessons teach kindness skills through a step-by step framework of Inspire, Empower, Act, Reflect and Share. Each lesson starts with the ‘share’ step to reinforce learning from previous lessons. The ‘act’ piece is woven into the lessons but really takes place in the projects.

The Courage Unit is the last unit in this series. It focuses primarily on inspiring students to be courageous with their kind thoughts, words, and actions, even when others don’t acknowledge it. Every grade will also end in unison in the final lesson by completing a grade specific Random Act of Kindness. Be on the lookout for what the other grades in your school have in store for you at the end of this unit!

## Unit Objective

Students will:

- Identify ways to show courage for ourselves and for others.
- Practice random acts of kindness.
- Show courage through helping ourselves and others.
- Discuss how it takes courage to be kind to others without recognition.

## Student Introduction

Welcome to our final unit- Courage!! Over the next few weeks, we are going to use our courage to be kind to both ourselves and others. We will be learning how to build ourselves up through positive words, inspire others through kindness mail, and even give the kindergarteners kindness capes to help them be courageous as well! We are going to focus on these important areas:

- Having the courage to be kind to ourselves!
- Having the courage to be kind to others!
- Having the courage to make our school a place where people love being!

It’s time to spread the kindness through courage- let’s get started!
