

Responsibility Word Search

In this lesson, students will think of at least 10 words that represent the concept of responsibility and perseverance. They will then create a word search out of these words and share with each other to complete. This project encourages students to “name” responsibility in new ways so they can more easily recognize what responsibility is and looks like in their everyday lives.

Kindness Concept(s)

Responsibility, Perseverance, Kindness

Project Timeframe

25-30 minutes

Required Materials

- ❑ Responsibility word search template (see attached)

Have students work independently or in small groups (to help idea generation) and brainstorm 10 words (long or short) that represent what responsibility and perseverance mean. You might ask for 5 words for each concept or simply 10 total. Then, either using the word search grid below or using an online word search generator, have students create a word search.

The attached grid can help students create a neat, clean puzzle; without a grid, it may be difficult to keep columns and rows straight. Students can also make their own grid with rulers. Number of squares will depend on the words selected for the search. You might also choose to brainstorm 10 words as a class so everyone is using the same words in their puzzle.

When everyone is done, have students/groups exchange puzzles and solve them.

Wrap Up:

Have students/groups share some of the words they found in each others' puzzles and discuss why those words are good representations of responsibility and perseverance.
